Mechas Para Candela

1 Identification of the product

Trade name

Candle wick – bleached

Division for information
Management

2 Composition/ information on ingredients

cotton thread, impregnated;
impregnation with anorganic potassium- and sodiumsalts, contents max. 0,5 %

3 Hazards identification of the product

inflammable

4 First aid measures

not applicable

5 Fire-fighting measures

Suitable extinguishing media
Jet of water
Cooling down of burnt material necessary

Extinguishing media that must not be used for safety reasons
Gaseous extinguishing media are not to be used.

6 Accidental release measures

not applicable

7 Handling and storage

handling
no further requirements

storage
keep away from heating- and ignition sources

8 Exposure controls/ personal protection

no further requirements

9 Physical and chemical properties

Physical state

Physical state: solid
Colour: white
Odour: odourless

Safety relevant data

Autoflamability: 350°C
Solubility: Impregnation << 1 g/l at 20°C

10 Stability and reactivity

Conditions to avoid
None

Materials to avoid
None

Hazardous decomposition products
None

11 Toxicological information

Quantative data about toxic effects are not known.

12 Ecological information

General statements

Cotton fibres can be decomposed biologically. Negative ecological effects caused by the impregnation are not to be expected.

13 Disposal consideration

Disposal as domestic garbage like commercial waste

14 Transport information

The product is not affected by transport regulations.

15 Other information

The given statements and data are result of our actual knowledge and are to be used to describe the product in the view of necessary safety precautions. This constitutes no assurance of characteristic of the described product.
